

TREVOCE**15 EQ** Triple Subwoofer

A dynamic powered subwoofer that offers up to 1600 Watts of power and includes a three-woofer design that dramatically enhances bass in home theaters, media rooms and high-end listening spaces. A powerful sub with a small footprint, the TreVoce15 EQ includes a 15" active woofer and two 15" symmetrically built passive woofers. The active subwoofer is self-contained and uses the sub's internal amplifier to reproduce sound while the two passive woofers enhance the SPL. This refined balance of internal and external power relieves your main speakers from having to produce low frequency sound, allowing them to focus on mid-range and highs. The result is optimal performance, so you'll experience movie and music soundtracks with thunderous, but not overwhelming, bass authority.

TREVOCE**15 EQ**

- 15" Triple Powered Subwoofer
- Power: 1000 RMS 2000W Peak
- Active Woofer: 15" Graphite Paper Cone
- Passive Woofer: Dual 15" Glass Fiber
- Frequency 16 -160 Hz, +/-3dB
- Phase 0-180°
- Voltage 100-120V AC / 220-240V AC
- Inputs Hi Level / Low Level / LFE
- Weight: 98 lbs
- Dimensions (WxHxD) 19.3 x 19.3 x 19.3 in
